## **TRANSAXLE**

### **PARTS LIST**

ISSUED 21.NOV. 1997.

K55HSQ0003

**MODEL**  
**K55J (HUSQ,US)**

## **INTRODUCTION**

Operating a profitable and efficient parts department should be the primary goal of every authorized KANZAKI. The purpose of this parts list is to provide all parties with consistent and clearly defined parts service.

**TUFF TORQ CORPORATION**

## HOW TO USE THIS PARTS LIST

This parts list indicates all of the component parts on the K55J transaxle and is made up of Illustration (refer to Attachment 1) and List (refer to Attachment 2).

On Attachment 2.

- ① shows the figure of Illustration.
- ② shows the function assembly name.
- ③ shows the function assembly code.

NOTE: FUNCTION ASSEMBLY is that we classify the transaxle into several assemblies by function and call it as function assembly.

This function assembly is composed of several parts, for example, see the function assembly code D92154-80540, this is composed of the parts shown on from 192154-24212 HOUSING to 192154-89210 BEARING 6202SH2. This function assembly is used for the informations on the engineering and design modification, but cannot be used for service.

- ④ shows the figure correspondent with Illustration. For example, Ref. No. 4-1, "4" shows Fig.4 and "1" shows the figure of part shown on Illustration.
  - ⑤ Level, Hereunder is given the relation among the number of dots(•), the level and the nominal parent-child relationship.
    - .....Parent parts
    - .....Child parts included in "•"
    - .....Child parts included in "••", Grand-child parts in terms of "•"
- For example, see Ref. No. 4-3, this is composed of from Ref. No. 4-4 to 4-7.

- ⑥ shows the part name.
- ⑦ shows the part code number.
- ⑧ shows the total quantity of part used in one unit.
- ⑨ Service, the part which "NO" is indicated cannot be provided for service in point of quantity and structure.
